MAN IN THE DUNGAREES

By George L. Watts

He wears no clinkin' side-arms, no brass-bound uniform,
Nor figures in the holiday parades,
No knitted timmynoggles and gilguys keep him warn,
He's black and grimy as the ace o' spades;
His face adorns no posters that recruiting outfits use,
In working duds he's no inspiring sight,
But though he's grim and ugly, if you give the imp his dues,
He's a darned essential unit in a fight.

He's the Man Behind the Shovel and he furnishes the stroke
That speeds the battle-wagon on her way;
He's the Engineer Force husky, the one who keeps the smoke
Aboiling from her funnels night and day;
Twenty feet below the water line, forever on the job,
His eyebrows curl and crackle in the heat,
His blood gets thin as water, but the dungaree-clad "Gob"
As a help to Uncle Sam is hard to beat.

He's the Man Behind the Shovel, and a fighter every inch,
And he "does his bit" his country to defend;
He's a rough and ready helper to the Skipper in a pinch,
And a good and faithful worker till the end;
He generates the giant force that trains the turret guns,
And makes his ship the victor in a fray;
He's the gunners' silent partner in a scrimmage with a foe,
And a plumb important fellow in his way.

He's the man who rides the slice-bar in his dirty dungarees,
And bakes his vitals in the furnace heat,
His breath of life depending on the ventilator breeze,
While the deck-plates burn the shoes upon his feet;
He's our ugly Black Gang hero, in time of war or peace
He feeds the fires that make the engines go;
And when the war was over his battles did not cease,
Though he never fired a shot nor saw the foe.

Lombard Defeated

The main event of the Sixteenth Naval District Smoker was fought by "Pewee" Weghorn and Jimmie Lombard of the Sixteenth Naval District. "Pewee" is one of the best fighters of his weight and just took Lombard in tow and defeated him. It seemed as though Lombard, although fighting earnestly, just couldn't get started at any time during the bout. He wasn't himself at any stage of the game.

This event was scheduled to be the an official Fleet event for the Featherweight title of the Asiatic Fleet, but due to the fact that Lombard was two and a half pounds overweight the official meet was postponed until the nineteenth of this month when these boys will meet for the title. If by chance Lombard hasn't been able to make the required weight by this time the belt will automatically fall heir to Weghorn by default. It is hoped that Lombard will be able to make the reduction in weight and that they will have the opportunity of meeting again, for all the fight fans want to see these boys meet again for it is expected that the second meeting will be much better than the previous one.

The records of the previous fights that these boys have had during their fighting career will be found in the last issue of BREEZES. It has been reported that Weghorn is not in the best of condition to fight and we hope by the nineteenth that both he and Lombard will be in the best of condition for it is a known fact that these boys will enter the ring with blood in their eyes for this bout for it means quite a bit for each of them.

The special event was fought by Harry Telasco the All-service Welterweight Champion from the Army and Sandy MacDougall, of the U. S. S. Canopus. Telasco won the decision from MacDougall but sure had a hard time doing it for MacDougall gave him one of the best runs for his money that he has ever had. This fight was more or less a scientific boxing match with both fighters doing their utmost to get in the best punches.

From the beginning of the bell in the first round until the last bell in the final these boys were throwing the leather at each other with MacDougall getting in about as many blows as Telasco was delivering. This bout was the third bout of the evening and was enjoyed as much if not more than any of the remainder of the bouts.

MacDougall who has far less experience as a boxer than Telasco certainly made a hit with the entire audience for the wonderful showing that he made and deserves more credit than words can express for this bout. It is hoped to see him and Telasco meet again soon for these boys can produce the stuff that keeps the entire audience on their toes throughout the bout.

The votes for this fight were as follows: two for Telasco to win the decision, one for MacDougall to win the decision and one as a draw. The first announcement made for the winner of the bout was made in an error giving the bout to MacDougall, but was corrected later in favor of Telasco.

Mr. R. A. Young Dies Aboard Chaumont

BREEZES announce with regret the death of Mr. Robert A. Young, Chief Clerk at the office of the Captain of the Yard. He died at 1:40 p. m., last Monday, April 1, on board the U. S. S. Chaumont on the way to the United States, according to a radio message received at the Navy Yard last Tuesday.

Mr. Young left on the Chaumont on March 20, for treatment in the United States. He was very ill and had been for some time when he left, but he walked aboard the transport and appeared optimistic about his chances for recovery.

Mr. Young came to the Islands in 1909 with Company D, Third U. S. Infantry. He was discharged here in 1911 and was connected with several local firms in Manila, including the Pacific Commercial Company. For some time he was on the staff of the MANILA DAILY BULLETIN as a proof reader.

He was appointed stockman of the Supply Department in the Navy Yard on July 1, 1924, and on November 16, of the same year, was transferred to the office of Captain of the Yard.

Many staunch friends of Mr. Young among the officers, enlisted men, American employees, and Filipinos will regret to learn of his death.

He is survived by a widow and several children, now living in Manila.

The main preliminary was fought by one of the boys from the Ship's Service Store and Huerta of Cavite. Plenty of action took place during this bout with Huerta winning the decision. Battling Manasala of the Beaver wasn't able to appear for the bout as scheduled.

The first preliminary was fought by Curry of the Marine Barracks and Taylor of the Canopus. These boys are just beginners and Curry had such an advantage over Taylor that the Referee stopped the fight during the second round and awarded the decision to Curry. We hope to see these boys meet again soon and see Taylor in just a bit better condition for the occasion.

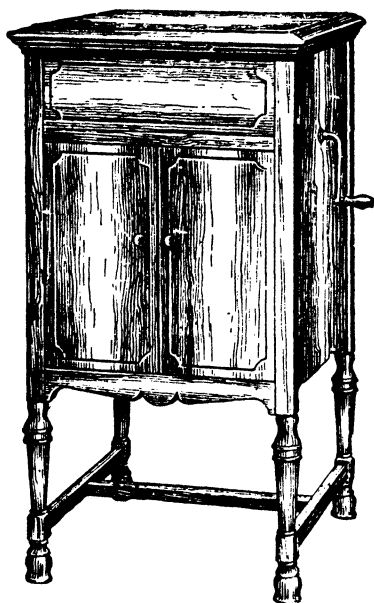

The second preliminary was between Colozze of the Canopus and "Red" Gray of the Marine Barracks. Plenty of action took place during this bout with Gray winning the decision by a small margin.

The curtain raiser was a "wow" and was fought by two youngsters of the Navy Yard, "Red" Bray and "Blondy" Chaote. These youngsters certainly gave the fans a good laugh and was enjoyed by all present. It is hoped that these little fellows will appear again soon for it gives us something different and shows wonderful sportmanship.

Two wrestling matches were on the program. The first match was between Tebo, of the Preble and Martel of the Jason, Tebo winning the decision by stop time. The second match was between Cox of the Marine Barracks and Seibold, of the Preble. Seibold won this bout by one fall.

The names of officials of these bouts were in the last issue of BREEZES and it is useless to say that everything went off in full form as per usual with the District Smokers. The date for the next smoker hasn't been set as yet but it is rumored that it will probably take place sometime around the nineteenth of this month.

The Canopus Field Meet

Last Wednesday afternoon the Canopus sponsored an old time school meet. Most all the runners, jumpers and "what have you," participated in this meet. The U. S. S. S-41 and the Deck Force had three trials at the famous old game, Tug of War, with the S-41 winning two out of three trials. After the completion of the tug of war several of the fellows participated in jumping. The longest distance for the run and broad jump was seventeen feet and four inches; the distance of the standing and broad jump was eight feet two and a half inches.

The famous old relay race was again seen in action at this meet, also a sack and potato race. This was the first time that we have been able to witness anything like this in the District and it is hoped that the Canopus will soon give us the opportunity of seeing another meet soon.

Marines Defeated

The officers of the Canopus took the Marines over the hill for a defeat last Wednesday afternoon to the score of 14 to 12. At one stage of the game the Marines were five runs in the lead but the officers settled down and by their hard hitting and the errors made by Marine players caused them to come out on top.

This game was played before the Canopus field meet and was enjoyed by all present, for it was almost as good as a circus, especially at one time when one of the Marine players attempted to tag out one of the officers. The Marine dropped the ball about three times and the officer was falling down just in front of him when he dropped the ball. This play was the most comical play that has taken place on the diamond during the year.

This team of the Marines is the one that has been mustered since the departure of the last transport and it is hoped to see them in better form soon.

The District Ball League

In accordance with a circular letter recently issued the following named league has been formed in the Navy Yard. The name of the league is Twilight League and is composed of four teams at the present time and it is hoped that two or three more teams will soon join.

The Industrial Department is bringing out a team to participate in the league, the Naval Ammunition Depot and the Supply Department are going to organize a team between themselves, the Marine Barracks are bringing in their new team for this event and the Receiving Ship is putting in an All-Navy team. It looks as though plenty of competition is going to take place between these teams for all of them have the making of a first class ball team.

Four games will be played each week on the diamond in the Navy Yard and that will give the ball fans plenty of excitement. It has not been decided as yet what the prize for the winners

Naval Ammunition Depot Team Wins

Last Sunday morning bright and early the Naval Ammunition Depot ball team loaded in a Bus and journeyed out to Canlubang Sugar Estate where they participated in a ball game during the afternoon. The N. A. D. team took their opponents in tow and carried them to a disastrous defeat by a score of 12 to 1.

The entire population of the Sugar plantation was present for the occasion, for it is seldom that any of the teams from this District ever travel out in that direction for a ball game. This game was a farewell occasion for the owner of the plantation before his departure for the States for a vacation of about two or three months. On his return from his vacation in the States he has asked the N. A. D. boys to journey out for another game.

From all the talk that is going on around the Depot this week the game and trip out to Canlubang was enjoyed by every one and they report one of the best trips of their life. On their arrival they were conducted to the Club House and greeted with open arms. After lounging around for a short while they were shown over the plantation and through the different parts of the various sugar mills. This plantation is one of the largest in the Islands and it was the aim of the owner to show the entire bunch the time of their life and it seems as though he certainly accomplished his aim.

On the return from visiting the mills all the players were seated to one of the best dinners that anyone should ever care to eat.

After the finish of the game in the afternoon they were presented to about three thousand of the best sandwiches that could be obtained with plenty of good cold beer to go with them and it is useless to say they were enjoyed by all present. It is the plan of the team to make a return visit for another game some time in the near future for all of them were pleased with the reception that they were greeted with last Sunday.

Mother: "Why were you kept after school?"

Jerry: "I didn't know where Armenia was."

Mother: "My goodness, was he absent too?"—*Exchange.*

Helper—"Say, Izzie, this is a bum sewing machine you have here."

Tailor—Vy, vots rong vidt it?"

Helper—"Why, every time I try to sew these buttons on I break the needle."—*Exchange.*

of the league will be although it is planned to get a cup for the winners and let it be rotated each year something on the order of the "Iron Man" in the Battle Fleet.

The uniforms for the various teams have not been decided but it is rumored that the color for the Naval Ammunition Depot and Supply Department team will be orange and white. No information has been received from any of the other three teams as to what their colors will be for the uniforms.

Captain Adams the District Base Ball Officer has been endeavouring to do all that he can for the benefit of the ball teams so if anyone desires any information as to the rules of the Twilight League see him at once.

NOBLE ORDER OF THE ONE IN SIX

By BRUCE BARTON

The doorbell rang, and I opened the door to find a colored man on the step.

"Your back fence needs fixing, sir," he said politely. "I am a carpenter, and I will put it in first-class shape for—" He named the sum.

Now, that fence has needed fixing for a good long time, and many carpenters, complaining that things are slow, have passed my door. But it remained for this unknown colored man to elect himself to the job.

I gave it to him with my blessing.

A few weeks earlier I had been visiting a friend in Buffalo when a similar thing took place; this time it was a plumber who called.

"How is your hot water?" he asked, knowing well enough that there is always something the matter with everybody's hot water. He, too, found a job for himself, not only in my friend's house but in half a dozen other houses along the street.

Henry M. Stanley, in his autobiography, tells of the boys who were his fellow-inmates in the workhouse where he spent his youth. The fat-witted majority," he says, "were just six times more numerous" than the boys with energy and initiative.

This proportion of one in six is very common in the world," he continues. "In ships that I have sailed in, among the military companions with whom I have campaigned, among the blacks and whites of my African expeditions, in the House of Commons, and in Congress, the leaven of one in six seemed to be required to keep things rightly going."

The saving one in six—the noble order of Go-getters—the blessed little remnant of those who do not wait for things to straighten out, but resolutely set themselves to straighten them out—how much more they are needed today than ever they were before!

Workmen bewail slack times, but the colored carpenter who called on me, and the plumber who called on my friend, have all the work they can do.

Business men grumble about this and that; but the members of the Noble Order of One in Six are wasting no time in grumbling: they are busy getting men and machines into motion again.

CHURCH NOTICE

Chaplin Riddle will speak on

HERBERT HOOVER

PRESIDENT OF THE UNITED STATES

This will be a short popular address on the outstanding achievements of the President as a young man, a mining engineer, and a cabinet member.

During the period ordinarily given to announcements, the Chaplain will outline President Hoover's Cabinet.

THE EASTER CHORUS WILL SING

Hospital Church 9:30 a. m.
Prison Church 10:45 a. m.
Receiving Ship Church 7:00 p. m.

Unsigned Contributions

BREEZES is always glad to get news from ships in the Yard, but it can not publish any items unless they are signed. Names of contributors will not be published unless it is desired.

This week an excellent contribution came in from the "Penguin" but, as it was unsigned, we were unable to publish it. We hope that the author will send in his name so that we may publish it in a later issue.

For sale.—Oakland 4 passenger coupe in first class mechanical condition, for \$500.00 cash. See T. A. Adams, Industrial Department.

For sale.—One kitchen table, one ice box, one go-cart, one large mosquito netting, and additional household equipment. For information, please see Lieutenant Davis, U. S. Navy, U. S. S. S-2.

Nor is this the first time that the world has been askew. The Jews returned to Jerusalem many years ago to find the walls broken down and the city in ruins.

It was a hopeless proposition, so the grumblers said; but a gentleman named Nehemiah thought otherwise. He set each man to building the little piece of wall over against his own house.

"So built we the wall," he tells us, "... for the people had a mind to work."

Being willing to work and having a mind to work are two quite different qualities, I take it.

The world is full of folks these days who are willing enough, if work is brought their way; but here and there an ardent spirit has a mind to work, and thinks out a job for himself where no job was before.

It is by the increase of these ardent spirits that the world will be rebuilt. We are weary of campaigns, but we really need one more—a whole-hearted drive to double the membership of the glorious company of Self-starters—the Noble Order of the One in Six.—*Manila Bulletin.*

Important World Events, This Week, Fifteen Years Ago

MARCH 31, 1914

By 247 to 167 the U. S. House of Representatives passed a bill for the repeal of the tolls-exemption provision of the Panama Canal Act of 1912

Timothy D. Sullivan, Irish Statesman and writer, former Nationalist Member of the House of Commons, died.

Seventy-seven of the crew of the steamer "Newfoundland" were frozen to death while stranded on an ice-floe in the Strait of Belle Isle.

The steamer "Southern Cross" and a crew of 173 were lost.

Linnekogel, the German aviator, made a new aeroplane height record of 20,564 feet at Johanisthal.

The coal mines in Ohio were closed because of the refusal to renew contracts with miners under the anti-screen law.

Sir Hubert von Herkomer, British artist of Bavarian birth, died.

APRIL 1, 1914

By 276 to 54 the U. S. House of Representatives passed a bill granting pensions to widows and children of the veterans of the Spanish War, Philippine Insurrection, and the Boxer Rebellion.

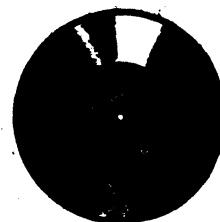

The permanent government of the Panama Canal Zone was inaugurated with Colonel (later Major General) Geothals as governor.

APRIL 4, 1914

The use of intoxicating liquor in the U. S. Navy prohibited by order of the Secretary of the Navy.

APRIL 6, 1914

The United States signed a treaty with Columbia, at Bogota, by which the latter recognized the independence of Panama and received in return \$25,000,000 and certain specified rights in the Panama Canal Zone.

INDUSTRIAL DEPARTMENTCAPTAIN J. A. FURER, (OC) U. S. N., MANAGER
WEEKLY BULLETIN

3 April, 1929

PENGUIN—The work on this vessel has first priority in order to complete the overhaul by 25 April, which date must be anticipated if possible. This vessel is to convoy the S-2 to Guam and remain there for duty relieving the Napa. The latter vessel will then come to Cavite for decommissioning. The Penguin was towed to Olongapo by the Bittern on 2 April for docking on 3 April, and will be towed back to Cavite for completion immediately after undocking.

PIGEON—This vessel was undocked on 2 April, and will return to Cavite for completion of conversion work. The hull sheathing work was completed while in dock at Olongapo.

CANOPUS—The work on this vessel is proceeding satisfactorily. The completion date at Cavite is 20 April, so that the vessel may accompany the 17th Division to dock at Olongapo, scheduled for 22 April. It is probable, that the Canopus will have to return to Cavite after undocking.

17H SUBMARINE DIVISION—The work is proceeding satisfactorily on the superstructure and lubricating oil tank. The radio mast work is waiting receipt of material from the United States. The last three pieces are due on the President Monroe on 10 April. At least two of these boats will have to return to Cavite after undocking for completion of radio masts.

S-2—This vessel will be sent back to the United States at once, see Penguin. Orders have been received to transfer all plans, spare parts, partially completed material, patterns, etc., for this vessel to Mare Island, where she is to be decommissioned. The Rainapo will convoy her from Guam to the States.

McCORMICK—This vessel was docked at Olongapo with the Penguin on 3 April to straighten the propeller blades.

PEARY—The tests and repairs of the condensers of this vessel have been completed. The completion date at Cavite has been set for 5 April, so that she may be docked promptly following the McCormick and Penguin.

BITTERN—In view of the shaft work on this vessel, the date of completion at Cavite was set for 2 April, so that she might enter the dock with the McCormick and Penguin. This vessel will continue in dock with the Peary and S-2 after McCormick and Penguin undock.

TULSA—All work on this gunboat was completed and the vessel sailed for Shanghai on 1 April.

PARROTT—The work is continuing on the manufacture of the turbine casing for the forced draft blower. The Parrott's beginning of overhaul date has been advanced to start 1 May, in view of the

Penguin's emergency overhaul. A successful casting has been made of the turbine casing for the forced draft blower and the machine work in the Machine Shop will soon be started.

PREBLR—The overhaul period of this vessel has been extended two weeks, in order to undertake certain extensive alterations, in connection with the fire control and searchlight platforms. The date of completion at Cavite has been tentatively set for 27 April. This vessel will not dock following overhaul.

PECOS—This vessel anchored off Cavite for preparatory work, necessary before docking, set for 11 April.

S-34—This vessel has come to the Yard for emergency repairs in connection with repairs to one main motor armature.

Radio School Notes

Just a few words by way of introducing the Spring class of '29 of the future brass pounders. We have, as usual, our Steinmetz in the person of Churchill, late of the good ship "MacLeish" and if you don't believe it ask him. The last month has found us pounding the old "mills" doing our best to master the touch system, also delving deep into the mysteries of the famous "Ohm's law." Sometimes we wonder if old man Ohm knew what he was doing when he wished that stuff onto us.

Four of the Marines came in a little late but they were blessed with a little former experience and therefore they are not having a hard time in getting along with the rest of the gang. Taking it all in all, Mr. Garrett, the officer in charge and Hamm, CRM., and Gunn, RM2c., are giving us some good dope and we all appreciate it.

Some of the lads are going in for hunting in the woods of San Roque but on the whole the most of us are normal. The baseball team is not as yet complete and we are sure that we have some good material but it seems as if they are bashful. As soon as we round up the team, with a little practice and cooperation we will be able to compare with some of the teams and make a good showing. So stand by and see if we don't.

We wonder what the attraction is over at the Canacao tank and at Sangley Point as a quite a few of the boys are to be seen there quite regularly. Marshall, the contribution from the Asheville, was seen with a few colored pictures and it is our idea that if he would go on the market he would make millions.

So funny things but how our boys do scoff. To see them going at it at the mess table one would think that they had been working hard or else had been on a diet all their lives.

With the Devil Dogs

It seems as though the Old Barracks is coming to the top and up to the standard of an Infantry Company, out of a Navy Yard Guard. Everyone seems to work hard for it.

Even the necessary wise crackers are on hand. The boys are all holding their breath until the camp brings in some mules to pull the bugs. They all know that it won't be long.

Where has the Turnip Seed been? Come out, Turnip Seed, and bring along a fresh load of wise cracks. We are sure the boys will love to hear them.

Of course, Abie had to give himself away. Why don't you like the women, Abe?

Kelley, the silver tongued orator, sure has the making of a good movie operator. He already claims the record of speed for one reel. We think he looks better with a cue rack wrapped around his neck.

We also have another record holder. Big Ben claims to be the "hardest guy" in the Marine Corps. We don't think he is hard. Just "hungry."

Who is the guy that does all the smoking, resting and "batting the breezes" during the Machine Gun Drill? And another thing, how does he do it?

The Tuesday and Thursday drill hasn't got a chance, now that the Machine Gun Crew has gotten started. The shiek thinks we should push the carts instead of pulling them. He says it would be good practice.

Famous last words: "Carts right."

Not many can boast of having missed a transport, but such was the case of ten or twelve "sparks." A bunch had been detailed for a "cheering squad" to shove off the Chaumont Maru and they all got up at four in the morning and when they arrived at Pier One, the Chaumont has already shoved off.

Many a tear has been shed since the Fleet shoved off for China for it left many of the men homesick for China side. But as it is a few of the boys are leaving soon: Bradford, Clawser, Williams, Ketring, Omo, Sterrit and Thomas. We sincerely hope that they make out O. K. aboard ship. Say Rosie and Tommy how's to shed a tear for us when you hit Shanghai.

MOTION PICTURE PROGRAM

RECEIVING SHIP

Week days, 7:15—Sunday 8:00 p. m

Saturday, 6th—The Coward—Baxter-Lynn
 Sunday, 7th—Old Ironside—Berry-Bancroft-Ralston

Tattooing

Tattooing is spoken of as the disfiguration of our clean skin by designs in color, which once received cannot be removed; what of the disfigurations of our "clear records," our conduct records, by colors which cannot be removed? To tattoo either our fine clear skin or our fine clear record is to impress thereon an imperishable blemish. Possibly we may hide either from our friends, but we can never hide them from ourselves. The Navy has kept pace with progress. Tattooing is a relic of old, discarded, and discredited customs, with no place in the body or mind of a modern sailorman. This is no reflection on our glorious predecessors, whose tattooed arms were first to grasp the cutlass or pull the lanyard, and who never tasted defeat, but the scene has changed, from sail to steam, from smooth-bore to rifled guns, from wood to steel, and custom has changed also.

Should anyone impress upon you the indelible mark of a tattoo, you are branded. Your clear skin has received a mark forever. What of the shipmate or associate, who by suggestion or act tattoos or caused us to tattoo our clear record? Lets avoid them both. There is no place in our modern Navy for either of them.

As the famous old saying goes, "you can get 'em on, but try and get 'em off."—*Training Station News.*
